

**Don't worry darling...
it's just *soap!***

Now we know better!

It's not just soap from washing your car
that goes down the storm drain.
It's also the oils and dirt from your car
that go directly into the drain
and run into our lakes and rivers,
untreated, harming the fish and our water.

***So, wash your car at a car wash, on the lawn
or someplace where it can soak into the ground.***
